

## MicroRobot

Circle No. 80 on Reader Service Card

**MicroRobot** is a Korean based robotics company that has recently opened offices in North America. It provides high quality, inexpensive robot kits ideal for the beginner or the advanced hobbyist. Easy to follow instructions, source code, and more is provided with each kit. Complete lesson plans, activities, parts descriptions, and step by step photo instructions are available for educators. **MicroRobot** also has a complete range of boards, hardware, etc., Tel: 1-866-209-5327 or email: [info@microrobotna.com](mailto:info@microrobotna.com)

## IT Training from Lab-Volt Systems, Inc.

Circle No. 81 on Reader Service Card

**Tech-World®:** Applications in Information Technology (IT) prepares students to succeed in any entry-level job, advanced education or career related to IT. Students gain realistic, hands-on training in the following subjects: Computer Architecture, Network Systems, Web Development, Communications and Software Development & Applications. Team-based interdisciplinary projects reinforce technical competencies and interpersonal skills that will help further ensure students, success in the workplace.

## Low-Cost Rapid Prototype

Circle No. 82 on Reader Service Card

**Low-Cost Rapid Prototyping System RapidPRO** allows the user to create solid objects designed using any CAD system capable of saving files in .STL format. Pro/DESKTOP, Rhino, AutoCAD 2000 or higher, and CADKEY 19 or higher will work. **RapidPRO** imports a solid model and, using a special "wizard" slices the model. The slices are then cut out of sticky-backed paper using a vinyl cutter (for example a Roland CAMM-1), nesting as many slices as possible on a sheet to minimize paper usage. To further minimize material costs, the model can be scaled and **RapidPRO** will display the number of sheets required to do that scale. For a free demo CD-ROM contact D&M Technologies, 800-747-5172 x 173 [www.DandMTechnologies.com](http://www.DandMTechnologies.com)

IN LIFE, THERE ARE NO ANSWERS IN THE BACK OF THE BOOK.

At [WWW.PAXTONPATTERSON.COM](http://WWW.PAXTONPATTERSON.COM), learn how you can help students find real solutions for real problems.

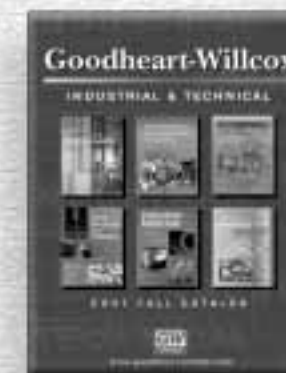

EduSystems from Paxton/Patterson equips your students with essential critical thinking and creative problem-solving skills. We offer several engaging programs for students in grades 3 through 12, and each one provides hands-on learning that stimulates higher-order thinking.
