

Literature Showcase

These fine suppliers of educational materials are offering FREE brochures and catalogs about their products. Select as many as you require by writing the appropriate reader service number in the boxes provided on the reader service card. Your request will be forwarded promptly.

NOW, ALL MY STUDENTS LOVE MATH!

Accelerated Math® math management software helps teachers dramatically increase student math achievement in grades 1 through calculus. Accelerated Math prints unique assignments tailored for each student's ability, scores papers automatically, gives teachers more quality time to teach, and dramatically improves student attitudes toward math! Call today (800) 338-4204, ref. #1587 for a FREE CD-ROM demo and brochure.
